17" ALLOYS

This is a 1 off car and has had nearly £20,000 and 100's of hours invested into it, to make it the amazing 400+ BHP car that it is today ! This highly modified car has all of the bills and invoices to back it up, which include a Big Turbo kit fitted, Stage 3 REVO Remap, REVO Big brake kit, B12 suspension, Twin intercooler, Full Milltek exhaust and Sports cat, SPS Pro kit, REVO throttle pipe, REVO race intake, Yokohama soft compound tyres. The DSG gearbox has also been modified / remapped to cope with the power, along with all the poly bushes & upgraded engine mounts etc... There is a very Full and comprehensive service history on this vehicle, as it was maintained regardless of cost ! Please do not confuse this car with any other modified Golf... It is nothing like any of us have come across before. This is not some teenagers Max power toy, but actually the obsession of a gentleman in his 60's who insisted in nothing but the best for his baby. THIS IS TRULY ONE OF A K...
